

MEASUREMENTS ANSWER KEY

There is a letter in front of the left column in each section. Find what that represents and indicate the correct response by putting the letter in the corresponding blank of that section.

For example, in Section 1, $\frac{1}{4}$ of a dollar represents 1 quarter. You will find an A in the line for 1 quarter, to indicate the correct response.

Section 1		Section 2	
A. $\frac{1}{4}$ of a dollar	___C___ 4	A. $\frac{1}{2}$ of a dozen	___B___ 1 foot
B $\frac{1}{2}$ of a pint	___E___ 1 pint	B. $\frac{1}{3}$ of a yard	___E___ 18 inches
C. $\frac{1}{3}$ of a dozen	___A___ 1 quarter	C. $\frac{1}{4}$ of a pound	___D___ 1 dime
D. $\frac{1}{2}$ of ton	___D___ 1000 pounds	D. $\frac{1}{10}$ of a dollar	___F___ 2 quarts
E. $\frac{1}{8}$ of a gallon	___G___ 6 inches	E. $\frac{1}{2}$ of a yard	___C___ 4 ounces
F. $\frac{1}{4}$ of a dozen	___B___ 1 cup	F. $\frac{1}{2}$ of a gallon	___G___ 528 feet
G. $\frac{1}{2}$ of a foot	___F___ 3	G. $\frac{1}{10}$ of a mile	___A___ 6

Please answer the following questions.

$$5 \text{ ft.} + 3 \text{ in.} = \underline{\quad 63 \quad} \text{ in.}$$

$$2 \text{ lb.} + 8 \text{ oz.} = \underline{\quad 32 \quad} \text{ oz.}$$

$$3 \text{ qt.} + 2 \text{ pt.} = \underline{\quad 8 \quad} \text{ pt.}$$

$$10 \text{ ft.} + 2 \text{ in.} = \underline{\quad 122 \quad} \text{ in.}$$

$$1 \text{ gal.} + 2 \text{ qt.} = \underline{\quad 6 \quad} \text{ qt}$$
